

Roseda Farms

Founded in 1996, [Roseda Farms](#) has cultivated its genetics and operations to become a premium beef grower in the Mid-Atlantic region, with 45+ farm partners moving their animals to Roseda for finishing and processing.

BetterFedFoods recently coordinated with Roseda Farms to track the progress of calves on Great O Plus lick tubs from birth, in the feedlot only, and on a traditional diet.

Although a small study (*not statistically significant*), meat samples from harvested animals demonstrated that Great O Plus lick tubs reduced the Omega 6:3 ratio and increased the Omega-3 per 4 oz. serving for the meat.

Great O Plus Lick Tub Test Groups	Avg. Fat	Avg Omega 6:3 Ration	Avg. mg Omega-3 (4 oz. serving)
Lifetime	17.85	11.54/1	64.54
Feedlot only	19.18	11.67/1	60.86
Control	28.47	28.46/1	53.17
